LEGEND

Point #1. Wind Direction Indicator (T): cloth; white in summer and black in winter (snow on ground); two sections; (a)-cross member, 5 x 1½-2 m., (b)-vertical section, 9 x 1½-2 m.

2. Ground signal: meaning, landing forbidden; made by placing section "a" across section "b" of indicator /Pt. 1, above/.

3. Ground signal: meaning, trouble with right gear (not retracted, etc.); made by folding section "a" in half.

4. Ground signal: meaning, trouble with left gear (not retracted, etc.); made by folding section "a" in half.

5. Ground signal: meaning, return to home base; made from the two sections of the indicator.

6. Ground signal: meaning, landing on left side of "T" only. Section "a" on right side of "T" would mean the reverse.

7. Ground signal: meaning, left hand traffic only; white cloth, five by five meters.

8. Ground signal: meaning, right hand traffic only; white cloth made by folding cloth /Pt. 7/ corner to corner.
